**Versus
Signals &
Systems**

Evaluation
Procedure

Same

- There will probably no breaks
- No mobiles, no laptops for lecture parts

Difference

- The mini-tests are no more. Attendance checking randomly happens at 8h45 or/and 11h00

Same

- There will probably no breaks
- No mobiles, no laptops for lecture parts

Difference

- The mini-tests are no more. Attendance checking randomly happens at 8h45 or/and 11h00
- No midterm examination

Evaluation
Procedure

Same

- There will probably no breaks
- No mobiles, no laptops for lecture parts

Difference

- The mini-tests are no more. Attendance checking randomly happens at 8h45 or/and 11h00
- No midterm examination
- No homework!

Digital Signal
Processing

TRAN
Hoang Tung

**Versus
Signals &
Systems**

Evaluation
Procedure

- This course will focus on the digital world, let's forget about continuous signals $x(t)$

Knowledge

Digital Signal
Processing

TRAN
Hoang Tung

Versus
Signals &
Systems

Evaluation
Procedure

- This course will focus on the digital world, let's forget about continuous signals $x(t)$

- You will meet many old "friends": linear time-invariant systems, convolution, Fourier transform, sampling

Systems

Evaluation
Procedure

- This course will focus on the digital world, let's forget about continuous signals $x(t)$
- You will meet many old "friends": linear time-invariant systems, convolution, Fourier transform, sampling
- The course will be extremely valuable for many of you
